ER30001 "1968 INTERVIEW NUMBER"

1968 Interview Number (1968 ID Number)

This variable is the 1968 family ID number. The combination of this variable and Person Number (ER30002) provides unique identification for each individual on the data file. Individuals associated with families from the Latino and Immigrant samples, added to the PSID in 1990/1992 and 1997/1999, and 2017 respectively, were assigned 1968 IDs so that they, too, have unique identifiers compatible with the PSID structure for the core (SRC and Census) sample.

TA050001 "RELEASE NUMBER"

Release Number

Two variables have been reconfigured for Release 3: TA050947 COMPLETED EDUCATION OF MOTHER and TA050949 COMPLETED EDUCATION OF FATHER. We have assigned a discreet code value: 96 to represent either that the parent is unknown or they have never been in the study so there is no education information about them. Users may now identify parents who have 0 education from unknown parents or unknown education.

Release 4: K17C/K17F/K18C/K18F/K19C/K19F were recoded to a 1-digit code frame for public release, to protect anonymity. A 3-digit code frame is also available for these variables in separate files to qualified users under special contractual arrangements with the PSID; for more information, contact us at PSIDstaff@umich.edu.

Release 5: Suppression of Beale code for urbanicity (TA050953). Fixes to some variable labels for consistency across waves and across studies.

TA070001 "RELEASE NUMBER"

Release Number

Two variables have been reconfigured for Release 2: TA070928 COMPLETED EDUCATION OF MOTHER and TA070930 COMPLETED EDUCATION OF FATHER. We have assigned a discreet code value: 96 to represent either that the parent is unknown or they have never been in the study so there is no education information about them. Users may now identify parents who have 0 education from unknown parents or unknown education.

Release 3: 1. Update for GPA variables in section G to recover ranges with an upper-end value of 12; missing data recoded accordingly; code frame will match that of TA-09.

2. K17C/K17F/K18C/K18F/K19C/K19F were recoded to a 1-digit code frame for public release, to protect anonymity. A 3-digit code frame is also available for these variables in separate files to qualified users under special contractual arrangements with the PSID; for more information, contact us at PSIDstaff@umich.edu.

Release 4: Suppression of Beale code for urbanicity (TA070934). Fixes to some variable labels for consistency across waves and across studies.

2013 Relationship to Head

Note that these relationships are those to the 2011 Head for any individual whose 2013 sequence number (ER34202) is greater than 50; that is, individual has moved out of the FU. Thus, for example, if the 2011 Head is no longer present at the time of the 2013 interview, his or her relationship to Head is coded 10; the new 2013 Head also is coded 10.
